

Semi Automatic 4 Color Pad Printing Machine With Linear Conveyor & Automatic Unloading

4 Color Semi Automatic Pad Printing Machine With Oval Conveyor Table

PLC control & finger touch HMI (Schneider electric/Siemens) with multilingual support.

The improved & newly designed cup in Aluminum with special ribs to create a heat sink.

Ring of 80 HRC hardness of Tungsten Carbide or high-tech ceramic as an alternative.

Sure Pad

reciteel Plates

Cross XY for precise registration

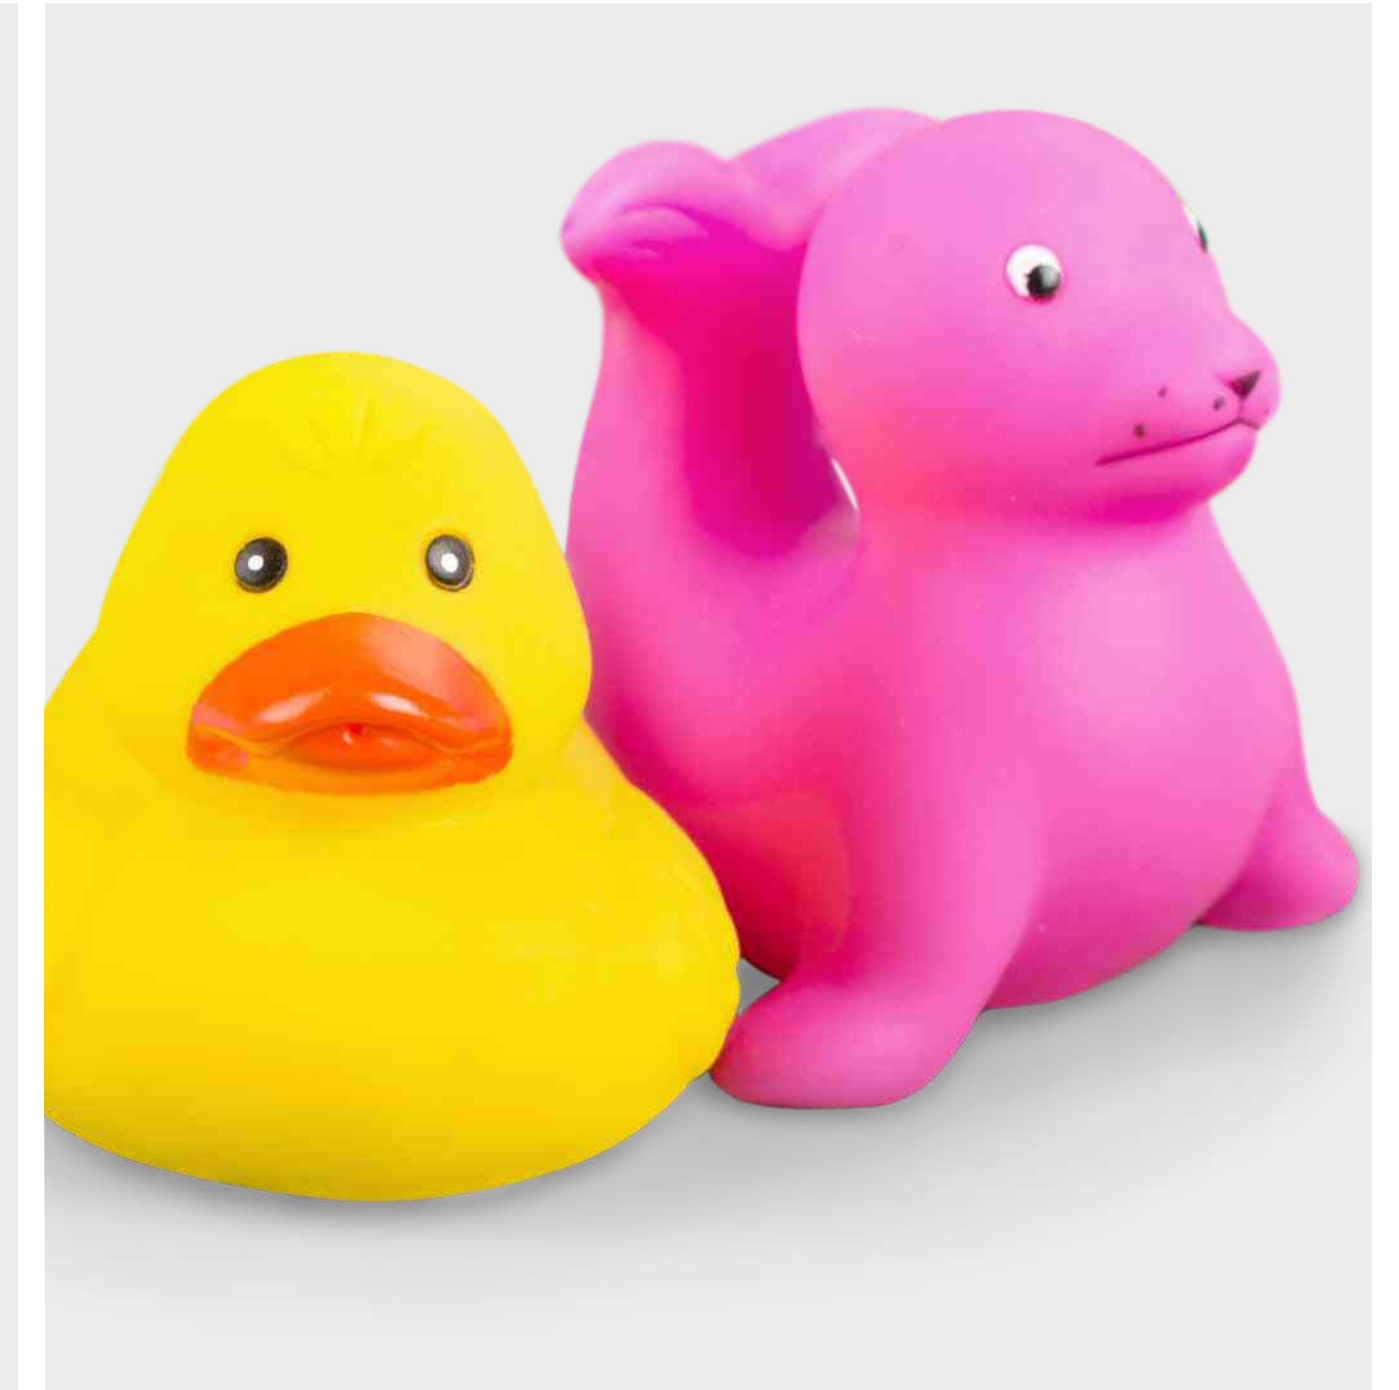

Salient Features & Advantages

- Compact, simple and environmental friendly machines.
- 37-pole automation interface allows addition of indexers, etc.
- Low ink consumption - Start with ink mixture as low as 15 grams (60 cup).

BIS • ROHS • REACH • OEKO-TEX • EN-71 • HASBRO

TEXTILE & FABRICS		PP/PA/PE	PLASTIC	WHITEGOOD	POLYMERS

KEY FEATURES

- PAH & HALOGEN FREE
- HIGH GLOSS
- LOW VOC's
- HIGHLY OPAQUE
- COST EFFECTIVE

- MECHANICAL & CHEMICAL RESISTANCE
- ENVIRONMENTAL FRIENDLY
- ONE/TWO COMPONENT INKS
- WEATHER & STRESS RESISTANCE
- THERMOFORMING SUITABLE

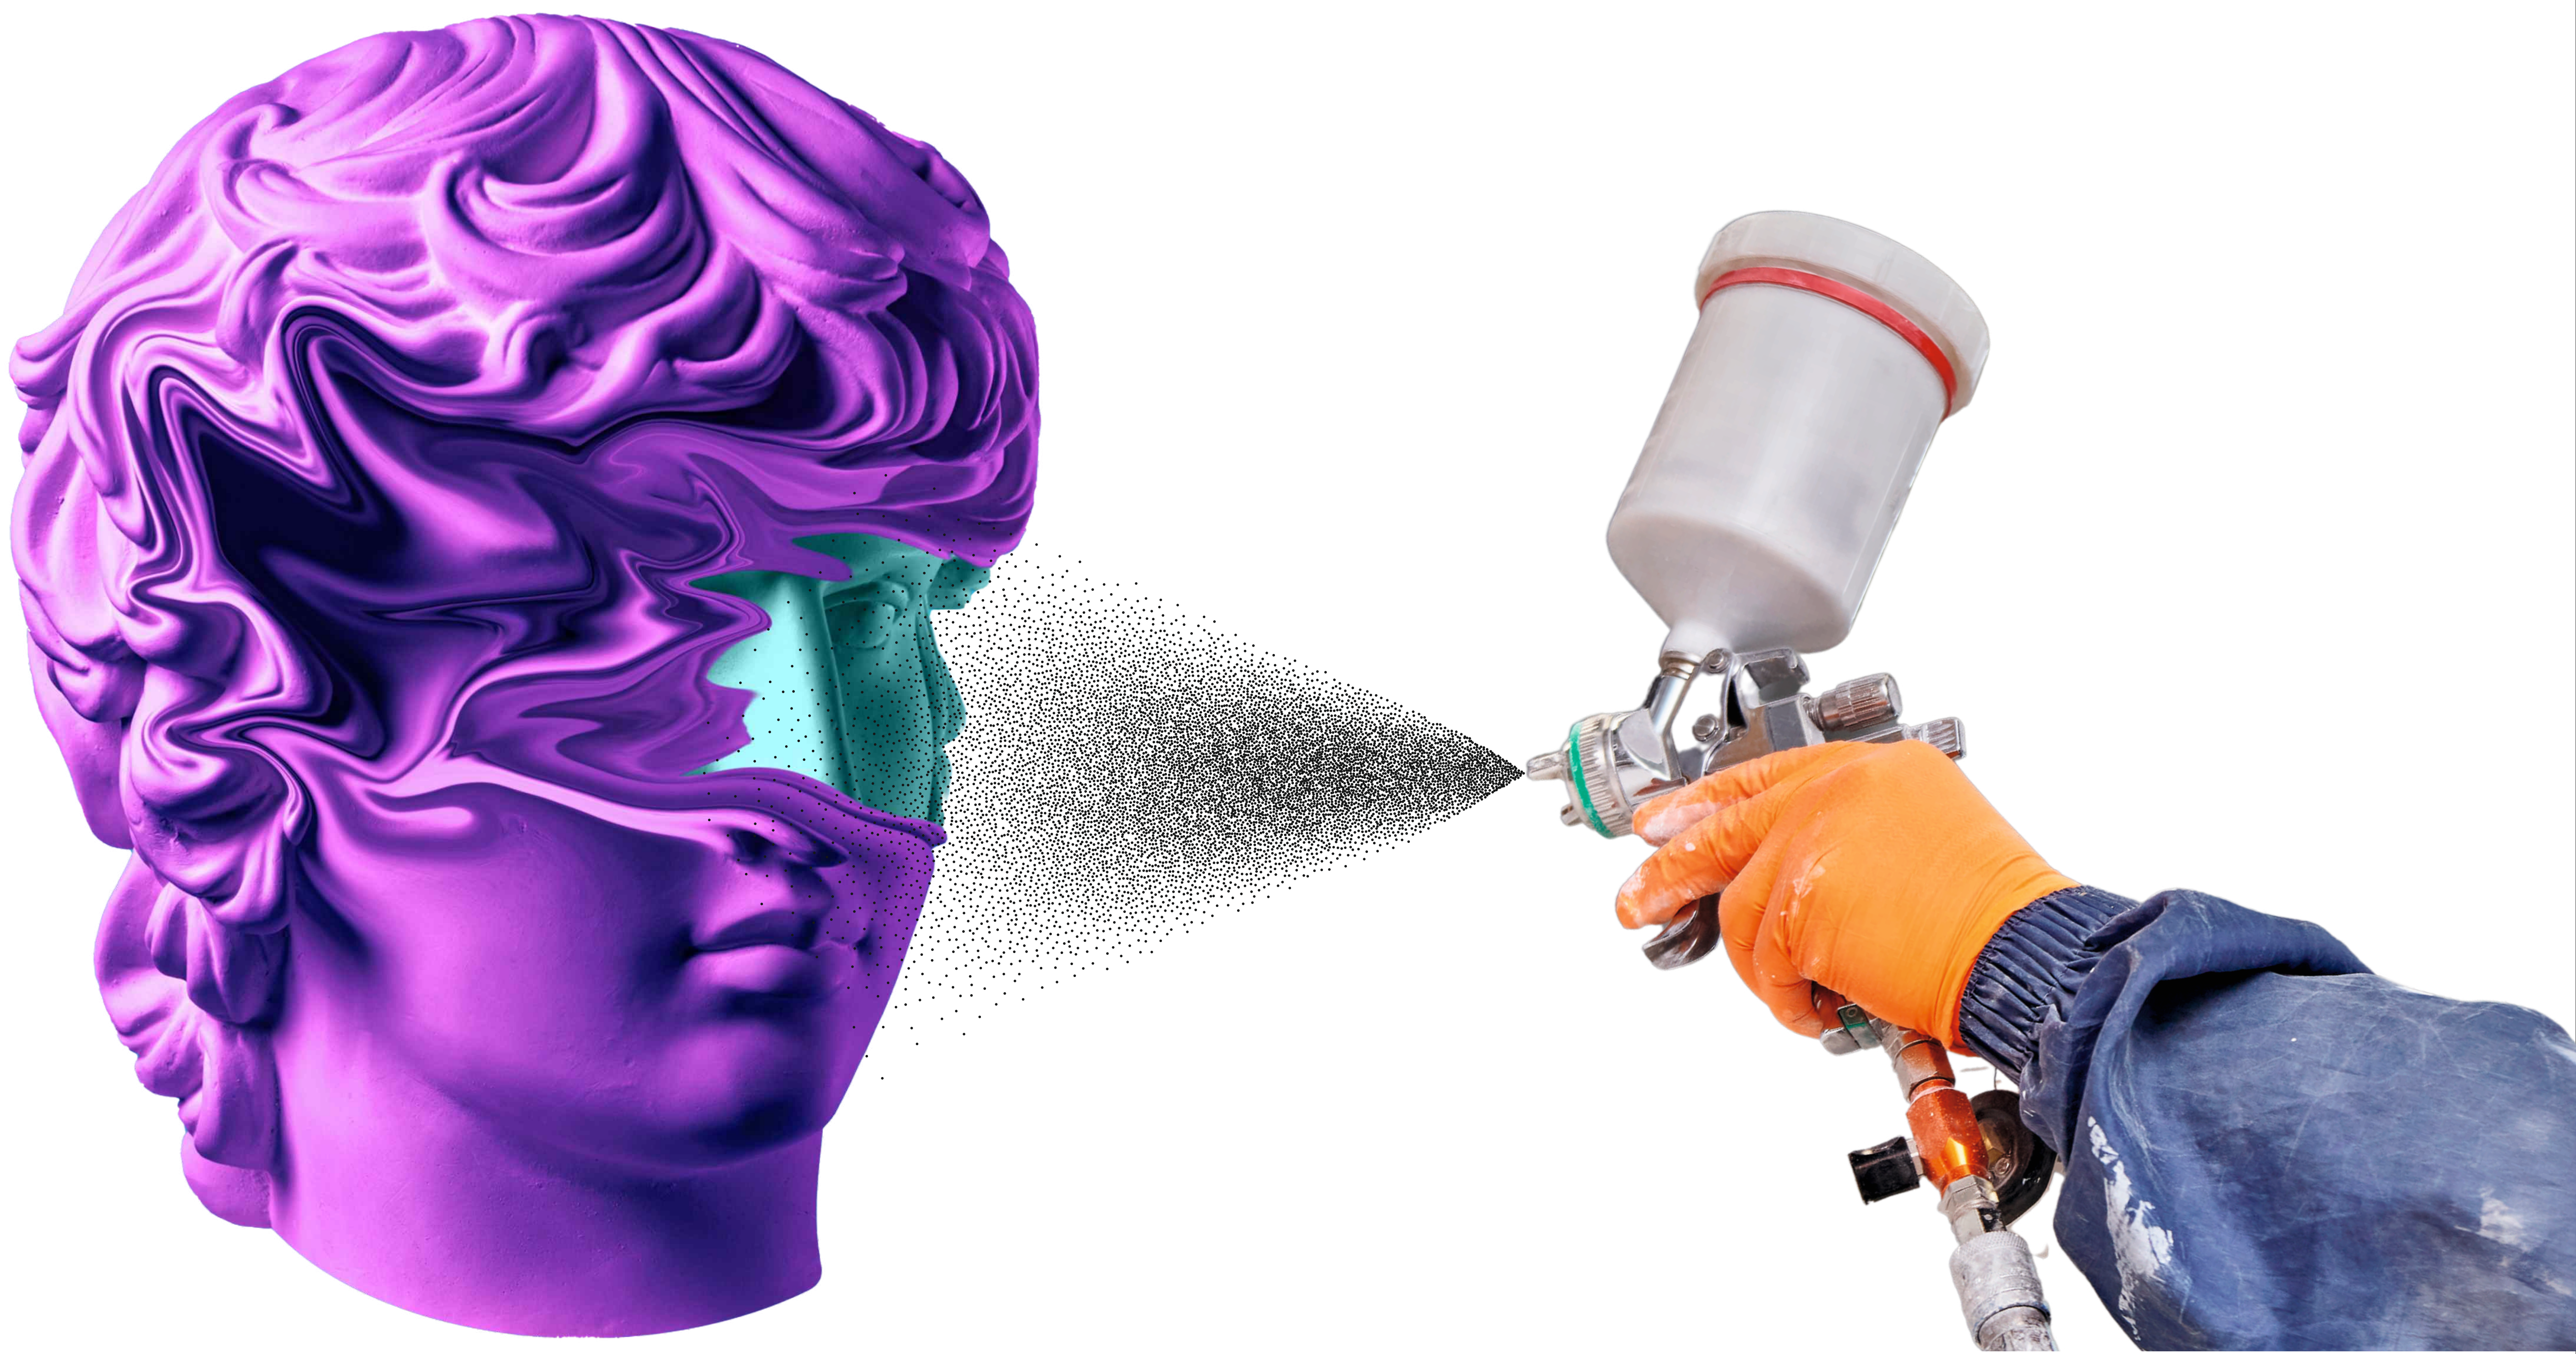

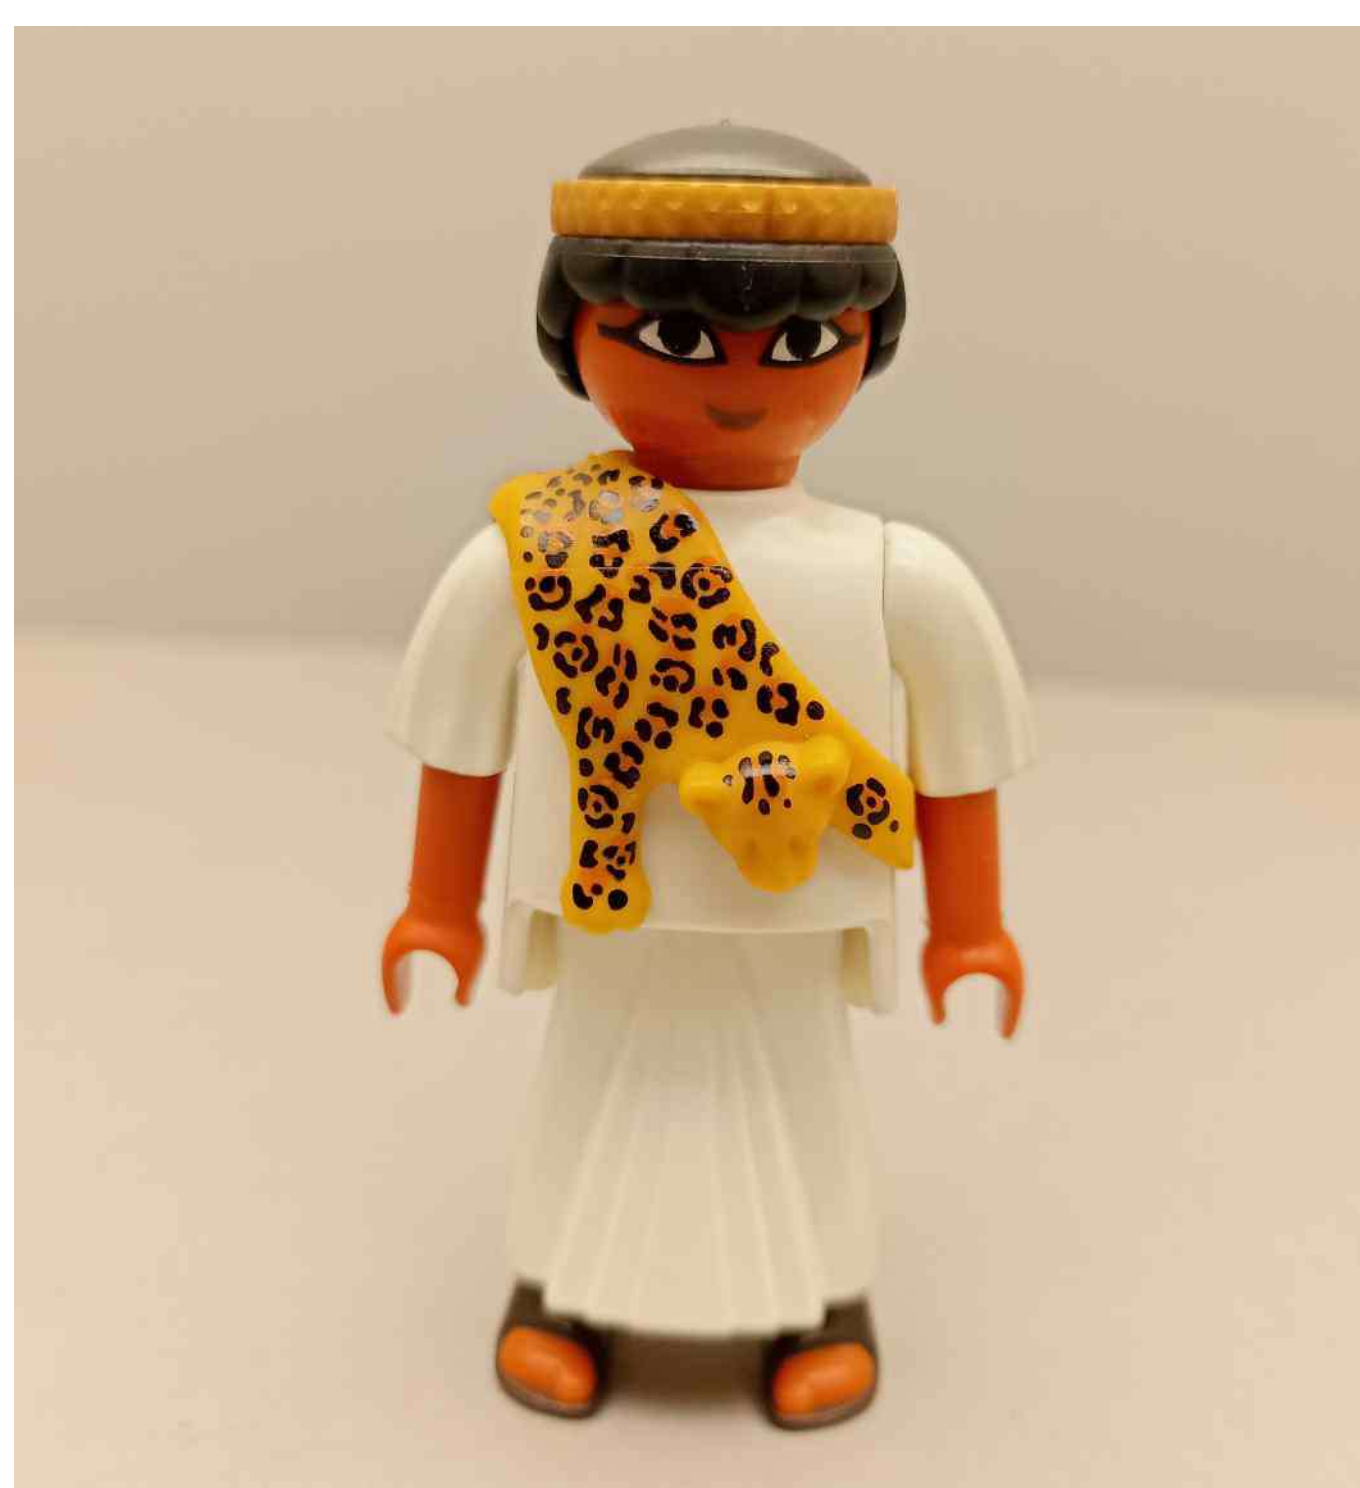

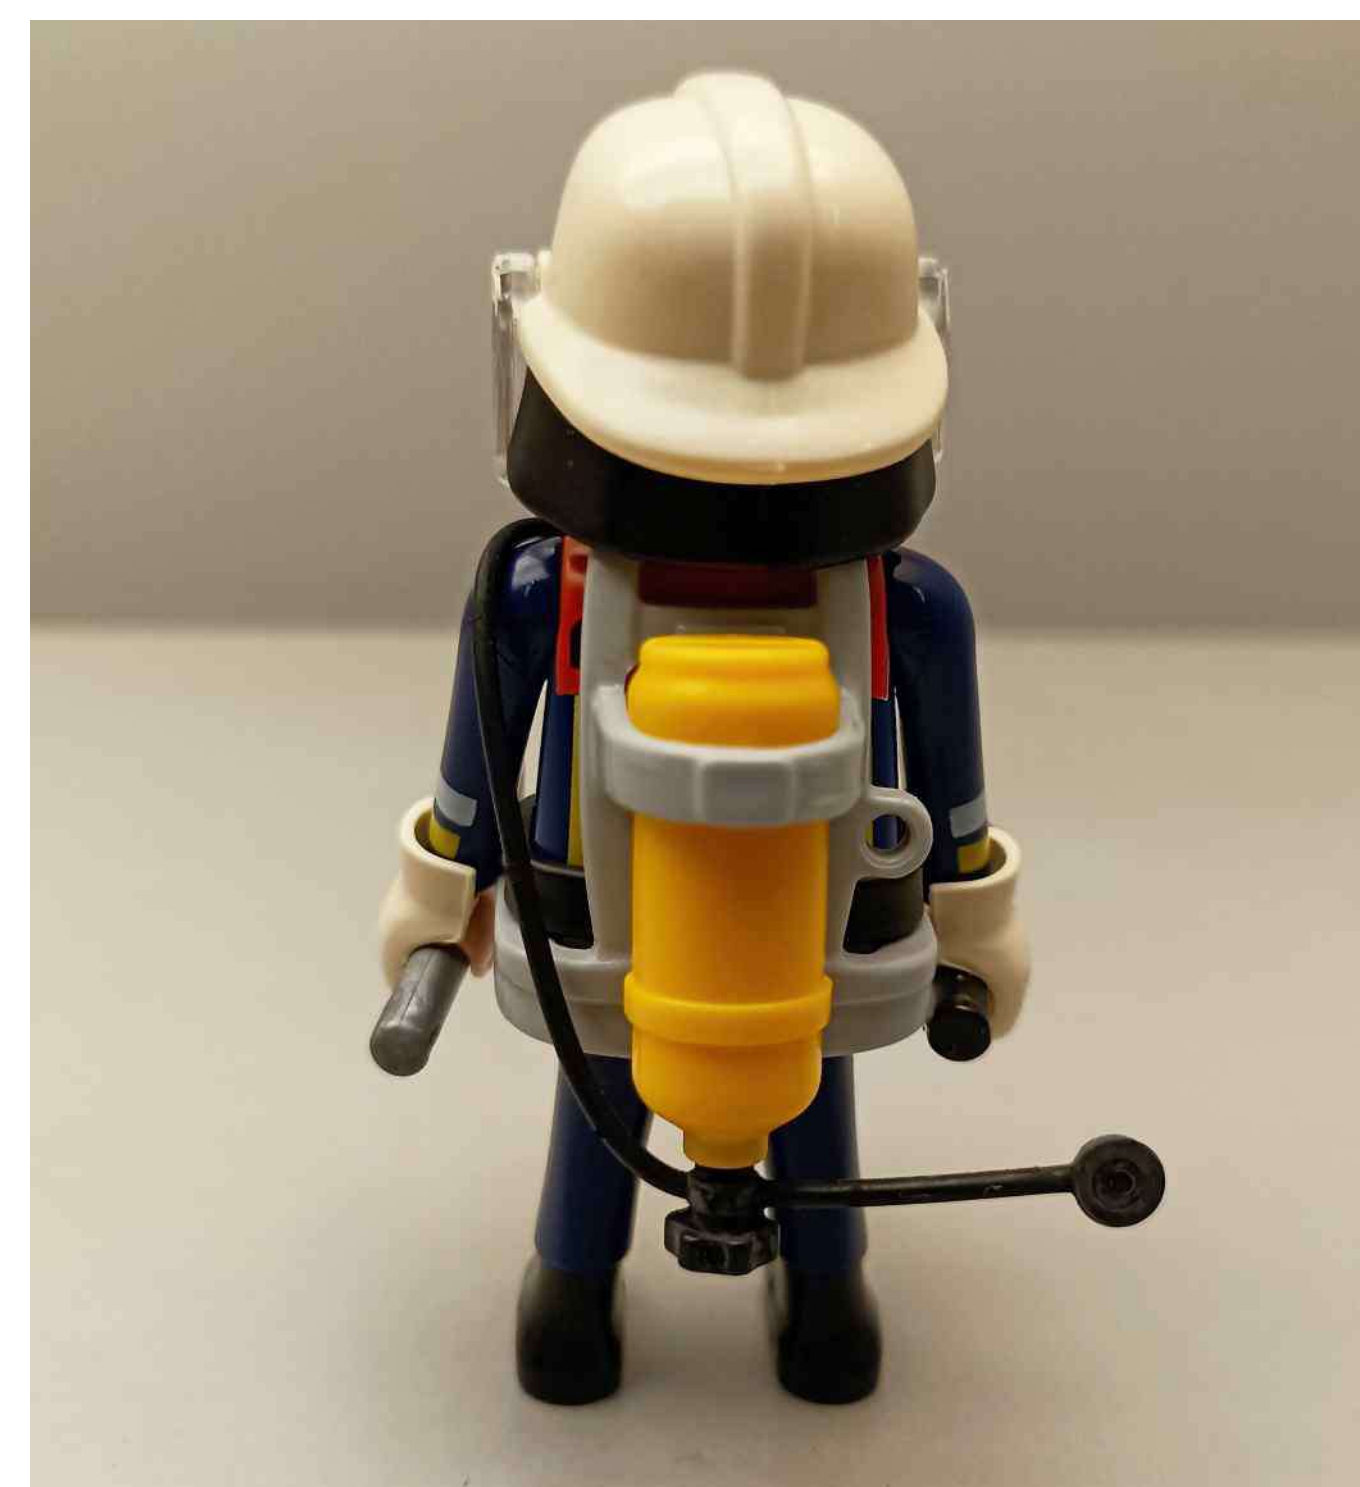

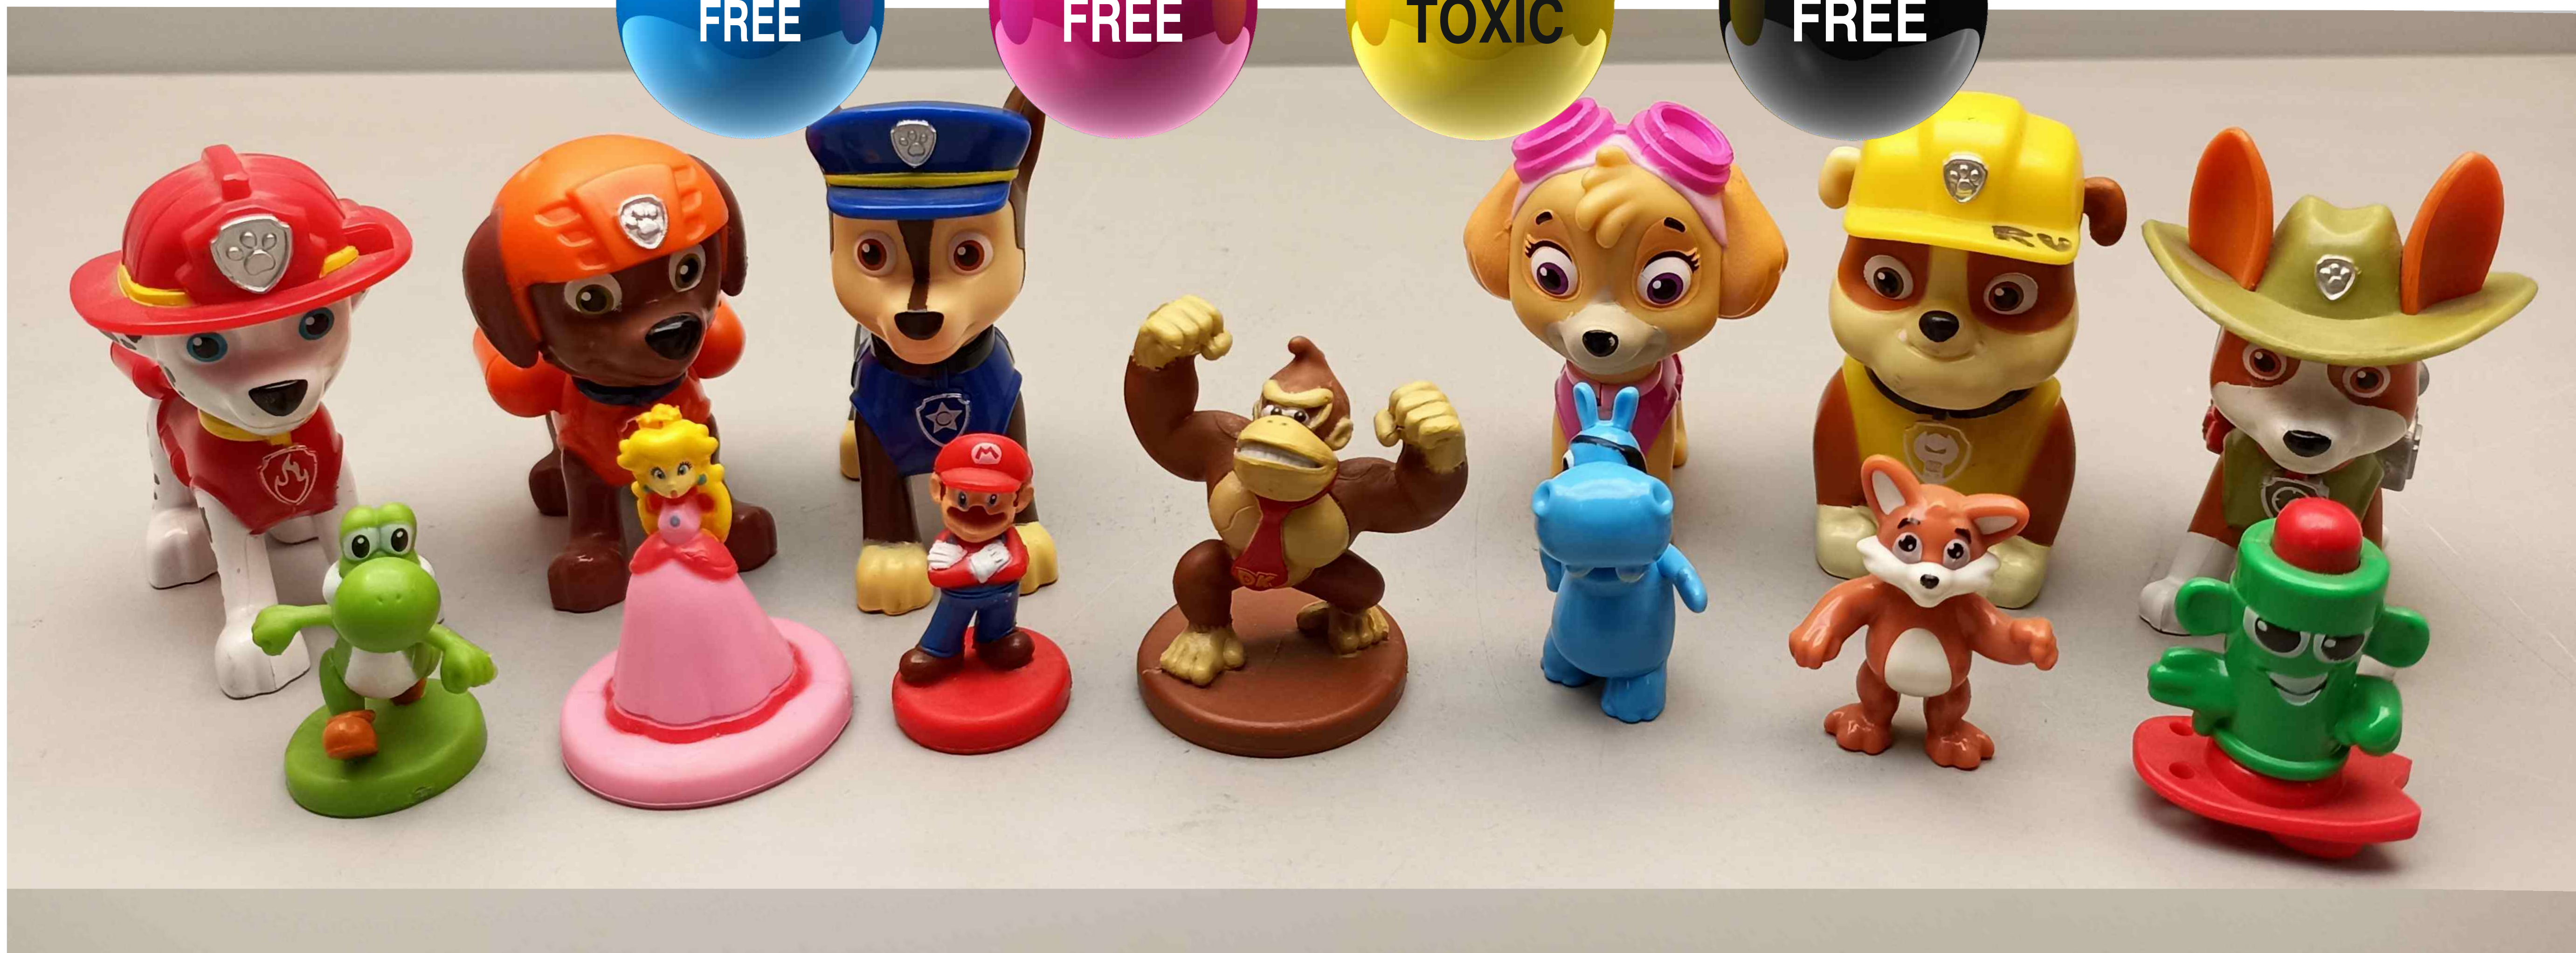

• BRILLIANT • OPAQUE • SAFE • LONG LIFE

SPRAY COATING MASKS FOR TOY PRINTING

Masks are essential barriers that play a crucial role in toy printing, preventing paint or ink from reaching unwanted areas. They are particularly useful for printing on irregular or curved surfaces, where precise registration of different colors can be challenging. With our masks, toy manufacturers can create high-quality, detailed designs on their products, adding value and appeal for consumers.

SPRAY COATING MASKS

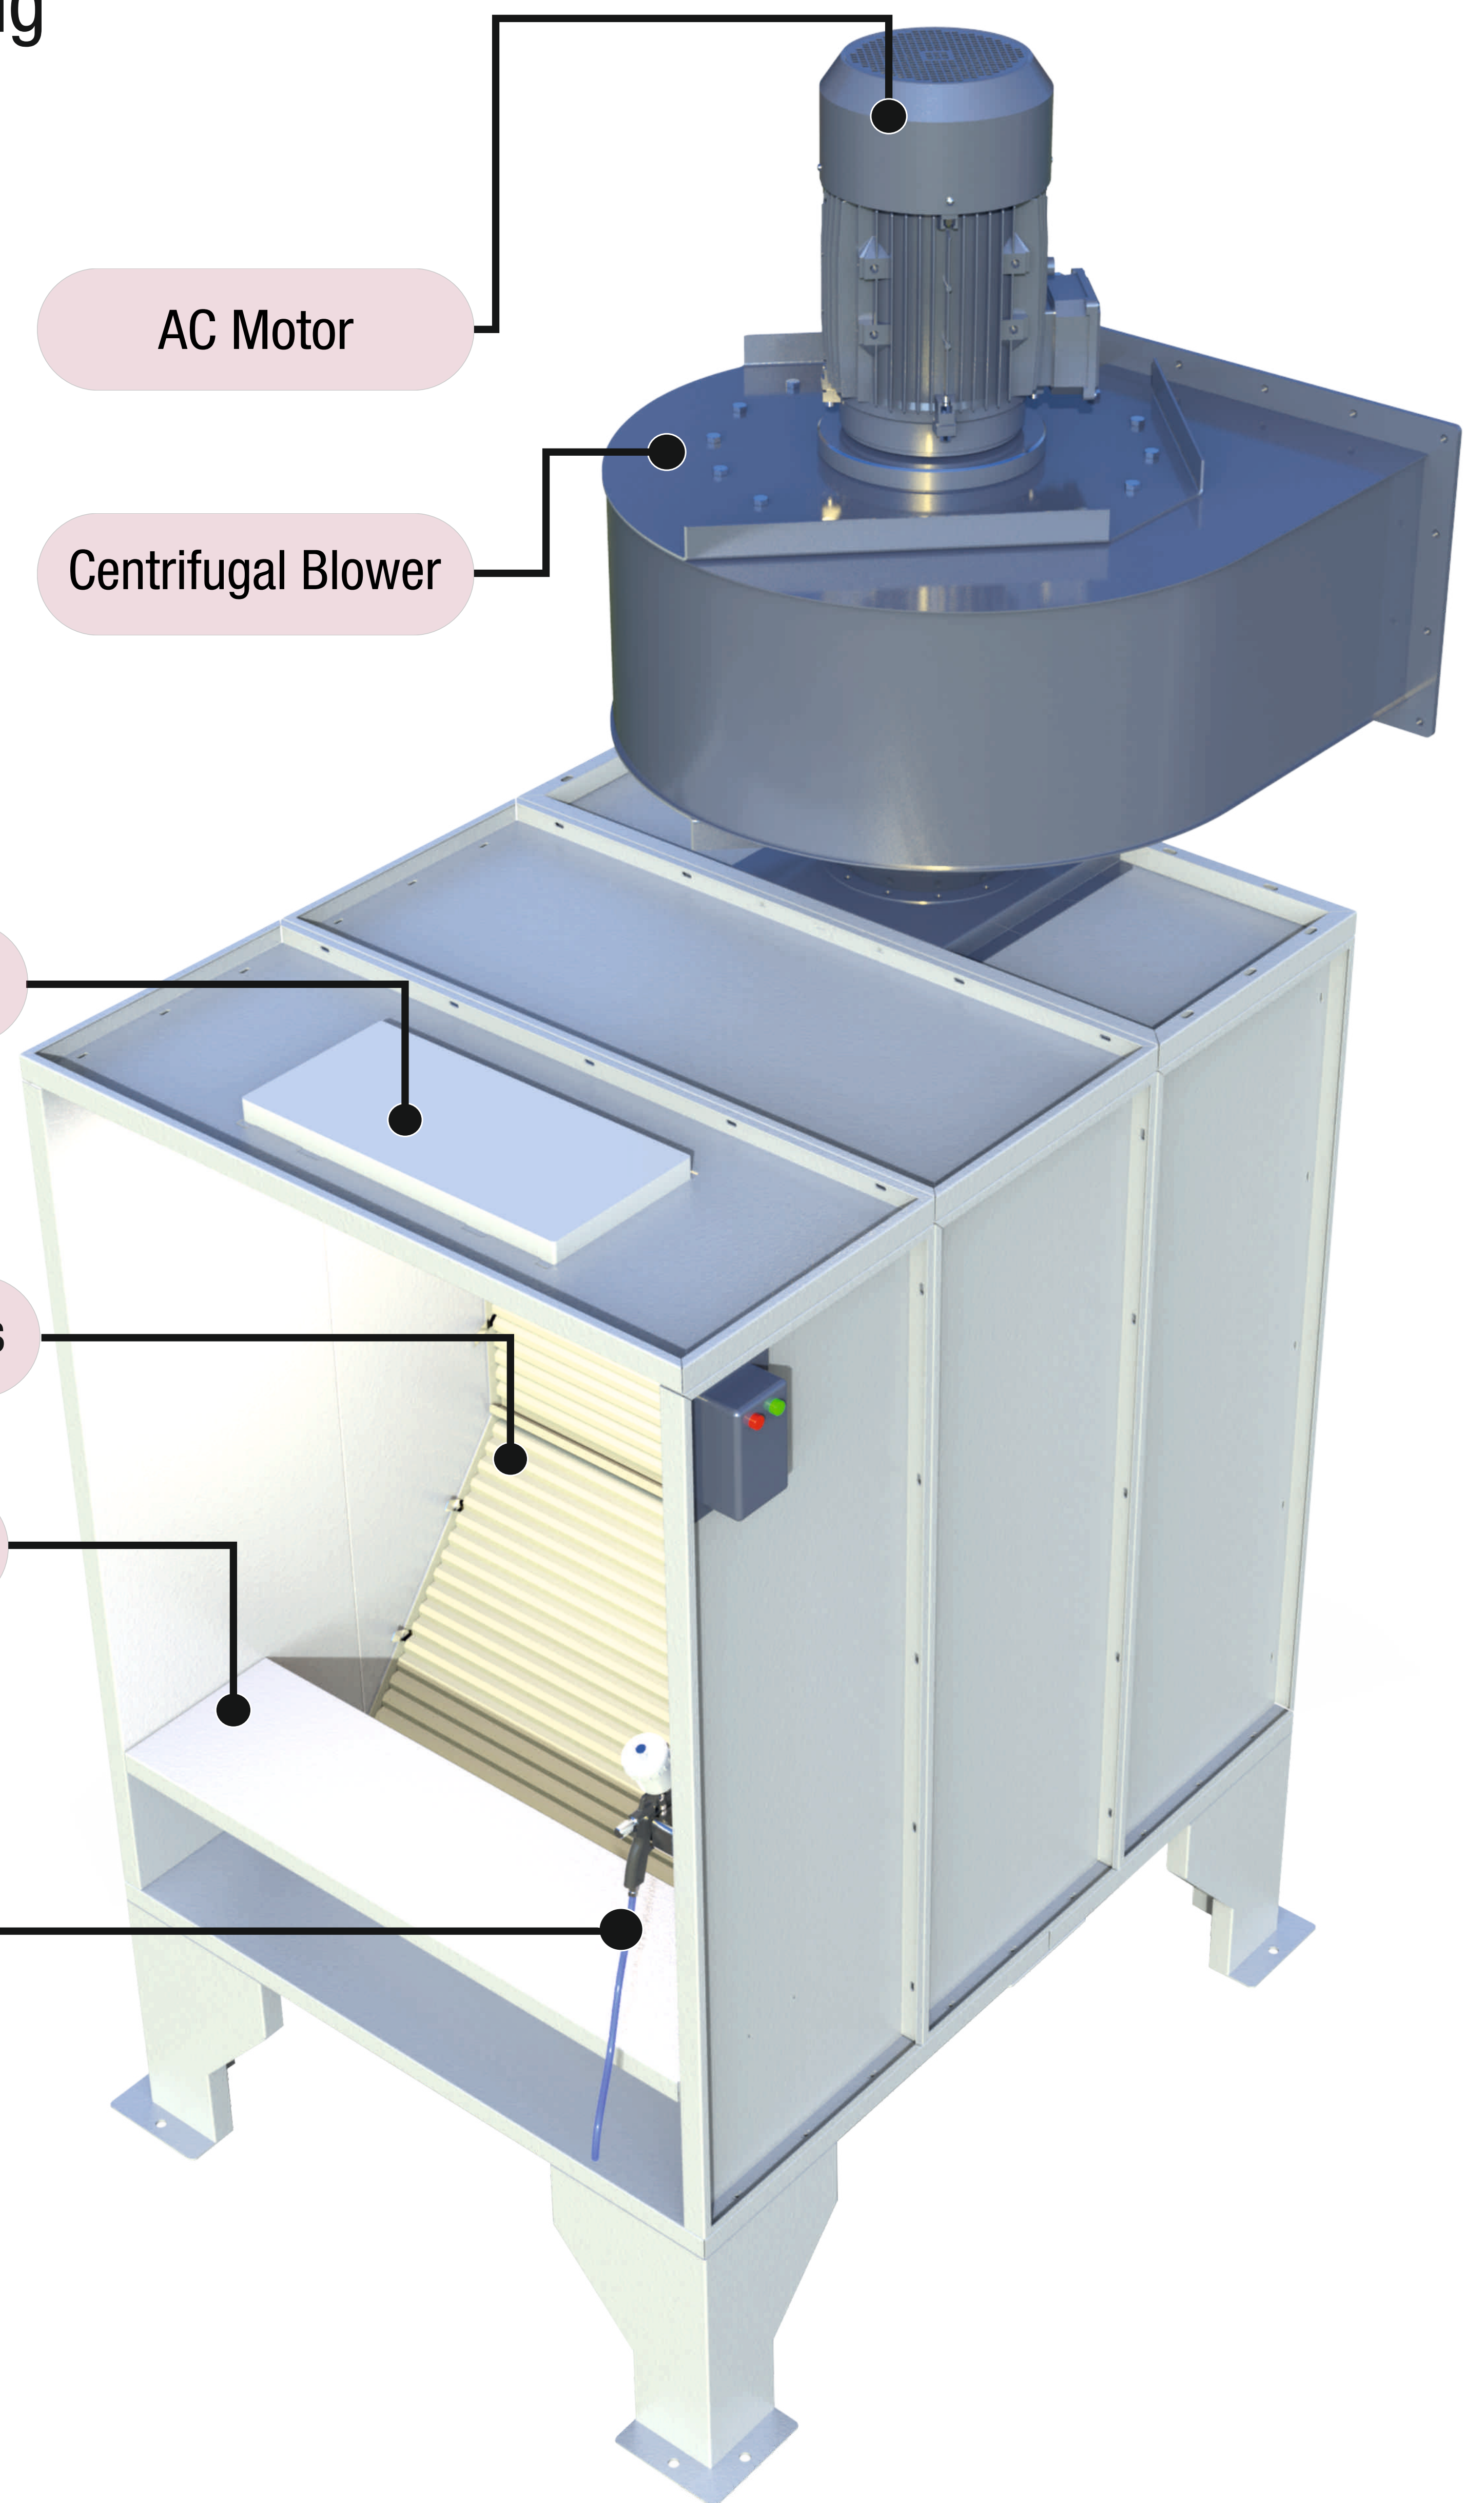

COMPLIANCES

REACH • ROHS • EN 71 • CLASS VI (USP)

DRY FILTER SPRAY BOOTH WITH SWISS TECHNOLOGY

- Smooth internal surfaces for easy cleaning
- Quicker installation
- Supplied with high efficient water-resistant media
- High-efficiency, reliable and patented
- No need of water or wastewater E.T.P plant
- Easily decomposable and disposable filters
- No environmental toxicity

Industrial Manual Spray Guns

- Pressure assisted gravity spray guns
- Mid-sized & light weight
- New gun body with curved handle
- Full industrial tip/cap range
- Separate air valve

Properties

- ✓ High coverage.
- ✓ Suitable for manual & machine printing.
- ✓ Excellent dry & wet rub resistance.
- ✓ Highly glossy & flexible.
- ✓ Excellent printability, stability & adhesion.
- ✓ 3D/ High density inks.
- ✓ Special effect inks & speciality inks also available.
- ✓ OEKOTEX®, BIS Compliant
