

SPINKS WORLD

One Stop Solution For Printing On Toys

Pad Printing Solutions for Toys

Pad printing machines
Pad printing inks
Pad printing consumables

Spray Coating Solutions for Toys

Spray coating booths
Spray coating inks
Spray coating consumables
Spray coating masks

Compliant Inks for Toys

Pad printing inks
Screen printing inks
Spray coating inks

Services for Toys Decoration

Cliche' etching
Tailor made ink solutions
Color matching services
Adhesion testing
Jigs & fixtures
Consultancy & training

Screen Printing Solutions for Toys

Screen printing machines
Screen printing inks
Screen printing consumables

We Offer High Precision Printing Machines, Compliant & Certified Inks/Paints/Coatings & Consumables for Toy Decoration

Pad Printing Machines

EPIC pad printing machines are ideal for printing on toys. These machines are compact and energy-efficient, providing the necessary pressure, speed & accuracy for both single and multiple prints. They feature a D-SUB 37 PIN for automation. The non-magnetic ink cup rings are made from tungsten carbide or high-tech ceramic with a hardness of 80 HRC. The machines also boast an electro-pneumatic drive with PLC Control & a finger touch multilingual HMI from Europe. An air shower is available to improve pad transfer. Additionally, these machines offer the highest tampon pressure available with machines in similar categories. The multicolor models are accurate & precise while printing two or more colors and come equipped with a servo-controlled linear shuttle for enhanced performance.

One Color Models

Available Models:

EP60 / EP90 / EP130 / EP150

Two Color Models

Available Models:

EP60-2CS / EP90-2CS
/ EP130-2CS

Three Color Models

Available Models:

EP60-3CS / EP90-3CS / EP130-3CS

Four Color Models

Available Models:

EP60-4CS / EP90-4CS

SPECIAL MODELS

Six Color Models

Available Models:
EP60- 6CS / EP90- 6CS

EPIC TIC /Transverse Ink Cup machines

Print Cup Diameter (mm)	Print Length (mm)
EP60- TIC / EP65- TIC / EP90- TIC / EP95- TIC / EP130- TIC	250 / 350 / 450 / 550

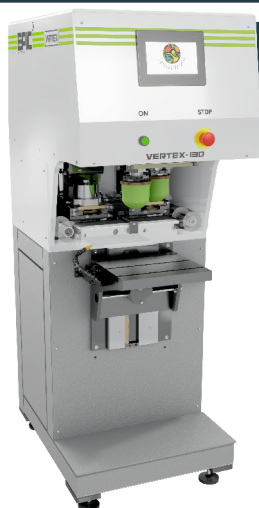

EPIC TIC, or Transverse Ink Cup machines, are designed to print long designs in one pass. These electro-pneumatic machines offer very high pressure and feature:

- High-Speed Electro-Pneumatic Drive.
- High Printing Force for Impeccable Results.
- Sturdy Machine Construction for Longevity.

EPIC Vertex

Available Models:
EP-Vertex 90- 2
/EP-Vertex 130- 2

EPIC Vertex are dual-color machines. They feature a unique static part printing mechanism, ensuring unparalleled accuracy and swift operation.

- Static Printing for Enhanced Accuracy.
- Capability for Large Part Printing.
- High-Speed Performance in Dual Colors.
- High Pressure for Sharp Results.

Semi-Automatic 4-Color Pad Printing Machine with Link Indexing Conveyor

Available Models:
EP60- 4C / EP90- 4C

This machine combines the powerful EPIC Four-Color machine with precision link indexing conveyor controlled by the inbuilt PLC in EPIC machines. It is ideal for situations requiring speed, accuracy, and precision in bulk production.

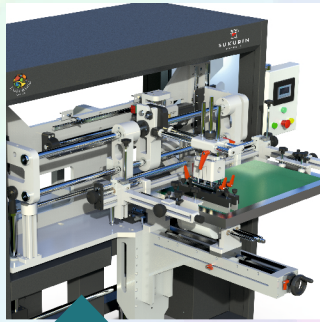

- Optimal for bulk production.
- High speed and accuracy.
- Reduction in human errors.

SOLUTIONS for toy decoration

Pad Printing Machines

High speed & precise pad printing machines for printing on toys, having excellent registration each time every time.

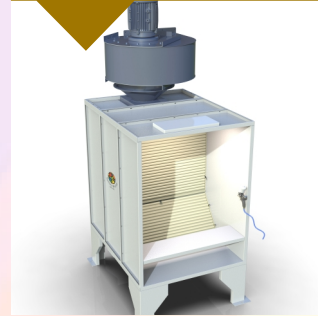

Spray Coating Booths

Dry Spray coating booths. No E.T.P required. Easily decomposable & disposable filters.

Screen Printing Machines

Automatic screen printing on cylindrical & flat part with integration of pre & post treatment for greater adhesion.

Consumables

Specially etched Cliché Plates with accurate depth & silicone pads, with appropriate shape and hardness to provide accurate clean & crisp printing on toys & baby products.

Spray Coating Masks

Masks made with special durable alloy for long lasting use. Our mask create a perfect seal preventing leakage of paints.

RUCO Inks

These inks are colorful & vibrant having outstanding resistance towards chemical & mechanical stress. These inks are fully compliant & certified.

Farbatoy Inks

Specially formulated for toy component printing, unmatched screen printing, pad printing & spray coating. These inks are EN 71 part 3, ROHS & REACH compliant.

Farbatex Inks

OEKO-TEX (FT003) certified inks for toy & infant garments printing.

Pad Printing Plates, Pad Printing Inks, Pad Printing Machines, Pad Printing Silicone Pads, Spray Coating Masks, Spray Coating Booths, Spray Coating Inks, OEKO-TEX® LEVEL 3, Non Toxic, EN- 71, BIS, HASBRO, HF, ROHS, REACH, TOXIKON- Class- VI test- USP Certified & Compliant Inks.
